Melissa Escue

Software Engineer

SUMMARY

I'm Melissa, a software engineer with a background in teaching. I am growth-oriented with a strong drive to learn and problem solve. I love creating visually appealing websites and applications that help my clients reach their goals.

WORK EXPERIENCE

Software Engineer at 100devs, Los Angeles, CA

January 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Fresh Grocery – Users can login to create the perfect and organized grocery list. They can add new items through an input, organize each item through categories, and edit or delete all items in their profile.

Don't Forget! Notes (Fullstack Web App) – Users can login to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile.

Critique Space – Made for my students, they can login, share a picture of their current project, and leave feedback for others. The app keeps track of which students share, their comment participation, and format all their submissions into a digital portfolio.

Full Stack Web Developer Freelancing| Fort Worth, TX

January 2022 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Client contact provided on request.

Art Teacher | Fort Worth, TX

August 2021 — Present

Organizing lesson plans, progress assessments and other student related data. Teaching and working with students in large groups and one on one. Communicating with parents and the larger community. I also worked closely with my department and participated in faculty collaboration
